# BARCODE RIBBONS LABELS, PRINTERS AND SCANNERS

(10) ABC123 (21) 0001

About Us

➢ Lipap Systems is a 25 year old manufacturing company based in Mumbai India. Lipap has been slitting barcode ribbons for several years and is a major supplier to several corporate and government institutions.

➢ Lipap Systems has 3 Swiss and American made slitting machines and with a production capacity of over 3000pcs per day in a single shift! This helps us reducing the lead times and offer faster order processing. Our jumbos are imported from the best companies in Japan in Europe to offer ribbons suitable for all applications. As Lipap is a Ribbons specialist we are able to offer a wide variety of ribbons including Near Edge.

➢ We can offer the entire product range of ribbons. Everything from Wax, Wax Resin and Resin ribbons can be supplied for your requirements.

➢ Lipap is tied up with suppliers from Japan, USA and Europe and imports the barcode ribbons in jumbo format. The jumbos are then slit into smaller sizes as per customer's requirements.

Advantages of Barcode Ribbons

➢ Lipap is a slitting (Manufacturing Company) so buy direct from manufacturer at a reduced price. No middleman.

➢Reduced delivery time – with our 3 slitting machines we can process your orders in lesser time.

➢Annual Rate contacts – no matter if there is a fluctuation in import rates, your prices remain the same.

➢High quality Japanese material at the lowest prices.

➢Use of high quality paper core to avoid bending. This also gives excellent ribbon winding without any wastage.

➢Direct doorstep delivery to any location in India.

➢Complete guarantee on length and quality.

➢Warranty of 1 year on all our ribbons.

➢Lipap can slit any ribbon size for any type of application that the customer demands.

➢Compatible with all label types and brands.

➢Consistent batch to batch quality.

Our Offerings

STANDARD - WAX

A general purpose ribbon used for a wide range of labels.
It provides excellent print quality and high density at low energy levels,
Cost saving and high print speeds of up to 10"/sec.
It is the most economical ribbon for a broad range of printers and materials.

Features :

- Low printing energy,,Very dark image,
- Prints on a wide variety of substrates
- Excellent durability,
- High speed printing （up to 10ips）
- Up to 65°C/149°F heat resistance,
- Superior back coating extends print life to 3+ million linear inches

SUPER PREMIUM RESIN

Tough, Reliable & Flexible

Maximum abrasion resistance assures lasting variable barcodes and text. Full resin ribbon bonds to a wide range of synthetics, providing excellent scratch and smudge resistance. Image quality is unsurpassed, especially crisp for high-resolution output required for small text and 2D barcodes.

Benefits

• Excellent mechanical durability

• Good resistance to typical chemicals

• Very dark black images with exceptional sharpness

• Prints on a wide range of synthetic receivers

• Anti-static formula and back coat extend print head life

• UL/CSA recognized , Up to 110°C/230°F heat resistance

Applications
